

Hand Protection Solution **PRODUCT CATALOG**

kaysons@kaysons-group.biz | www.kaysons-group.com

Our Vision

Since 1982, our focus has always been, and always will be, creating safe, compliant, and comfortable PPE for the worker. One worker at a time.

ABOUT COMPANY

KAYSONS strives to provide to the increasing demands of customers throughout the world – without neglecting the basic fundamentals of safety products, their protocols, and product enhancements.

The origination of the company dates back to 1982, when three determined brothers united to endeavor the export of gloves from Pakistan. The Piracha family succeeded in their intentions and propelled to their goals by consistently delivering to vast markets internationally.

KAYSONS manufactures the safest quality work gloves at reasonable costs, despite of a fluctuating price market. By making the best quality products and satisfying customer requirements, we build a bond with our clients to mutually overcome the global challenges. We are continuously enhancing our manufacturing facilities to incorporate the newest technologies. Our Technical Staff and Research Team are constantly striving for new ways to improve existing products and to develop new innovative designs. Our commitment to manufacturing, research and development are reflected in our heavy investments in these areas.

Our manufacturing facilities are ISO 9001 and BSCI certified. This stringent quality management system assures our customers of consistent high quality products. We have earned a reputation in the market as a quality conscious manufacturer and we will give our utmost effort to maintain this status. **KAYSONS** is a brand name, and therefore quality is guaranteed. Customer satisfaction is our objective and takes precedence over all other aspects. **KAYSONS** respects its clients, and will keep thriving through its R&D to meet their expectations.

Kaysons owns and operates three factories with over 100,000 square feet in area and 1200 employees
